

Alessandro Giugni,
CEO of Tecnorama

TECNORAMA SHOWCASES GLOBAL INNOVATIONS & SUSTAINABILITY COMMITMENT AT ITMA 2023

Tecnorama, a prominent automation solutions provider for the textile industry, experienced a profitable year in 2022 with a resurgence in permanent investments in Italy and the European markets. The company recently presented numerous groundbreaking innovations at ITMA Milan 2023, garnering recognition for its achievements. Mr. Alessandro Giugni, CEO of Tecnorama, emphasized the significance of these positive outcomes as key highlights for the year.

Tecnorama offers an extensive product range tailored for the global market, featuring cutting-edge solutions such as the DOS&DYE® systems, Dosorama MASTER, Dosorama SMART and Dosorama CLEVER laboratory automatic dispensing and dyeing machines. Moreover, the company provides diverse types of automatic dispensing, dissolving, and distribution systems for bulk applications, catering to various customer requirements. Tecnorama flourishes in Italy, Europe, Turkey, India, and many other markets where high performance technology is well appreciated.

Tecnorama maintains its commitment to technological innovation, introducing a range of recent advancements. Notable developments include the high-performance Dosorama MASTER automatic dispensing machine, the ROTODYRAMA 6/R-20 for delicate fabric dyeing, the DYRAMA 1K for yarn dyeing, the DOSORAMA POWDER for precise powder dyestuff dispensing, and the DOS&DYE® "JUST IN TIME&" system for efficient small-batch package yarn dyeing. At ITMA Milan 2023, Tecnorama presented its latest developments meticulously designed to meet the needs of the global market. Building upon the focus on Industry 4.0 in previous years, Mr. Giugni anticipates continued progress in manufacturing, automation, and digitization.

Sustainability holds a paramount position for Tecnorama, as the company actively promotes ecologically efficient solutions. Its commitment to environmental responsibility has been recognized through the prestigious ACIMIT Green Label, an esteemed certification endorsed by the Sustainable Technologies project.

Tecnorama stands out as a leader in full automation for laboratory and small batches systems, making it an excellent choice when considering textile manufacturing requirements. The company offers a wide range of technical solutions, enabling the processing of various textile materials and fibers, ensuring exceptional color reproducibility and outstanding results. Looking towards 2023, Mr. Giugni anticipates even greater growth for the global textile industry, capitalizing on the positive momentum.
